Dear Mr. Arif,

I am very happy to inform you that I've successfully completed CFA level 1.

As you aware, I purchased prep materials from your website after watching some of them in youtube and I was convinced that it is indeed a value addition to my preparation.

Honestly, I just did whatever you want me to do.

- Watched your lecture videos
- Worked all curriculum examples
- Read the curriculum summary
- Worked all end of the chapter questions.
- If I still couldn't understand some of them, I've again gone back to your lecture videos or IFT notes to ensure I get the concepts reasonably well.

and finally, for the last one month I worked out more and more questions from other sources as well. I still couldn't believe on certain topics on which you insisted us to get the concepts as it is more testable and it is indeed.

Essentially, I put almost 400+ hours of effort and surely it does help me to cross the finish line.

Sincerely thanking you to made this a smooth ride for me.
I will surely come back to get my level 2 prep materials shortly.

Sincerely appreciate on your best effort to teach us.

Best Regards
Hari Mahadevan
